

Wayfinding Legend

The **Cowan Tetrapod Collection** contains over 40,000 specimens of mammals, birds, amphibians, and reptiles, representing every continent on Earth, with most specimens coming from western Canada.

The **Marine Invertebrate Collection** contains thousands of specimens representing major lineages of animals, such as cnidarians, molluscs, annelids, crustaceans, echinoderms, and sponges.

The **Herbarium** houses the largest collection of plants and fungi in western Canada, with more than 685,000 specimens, it is also the world's largest collection of BC plants and Canada's largest collection of bryophytes.

The **Herbarium** also contains the world's largest research collection of BC fungi, including about a dozen type specimens, which scientists have used to describe newly discovered species.

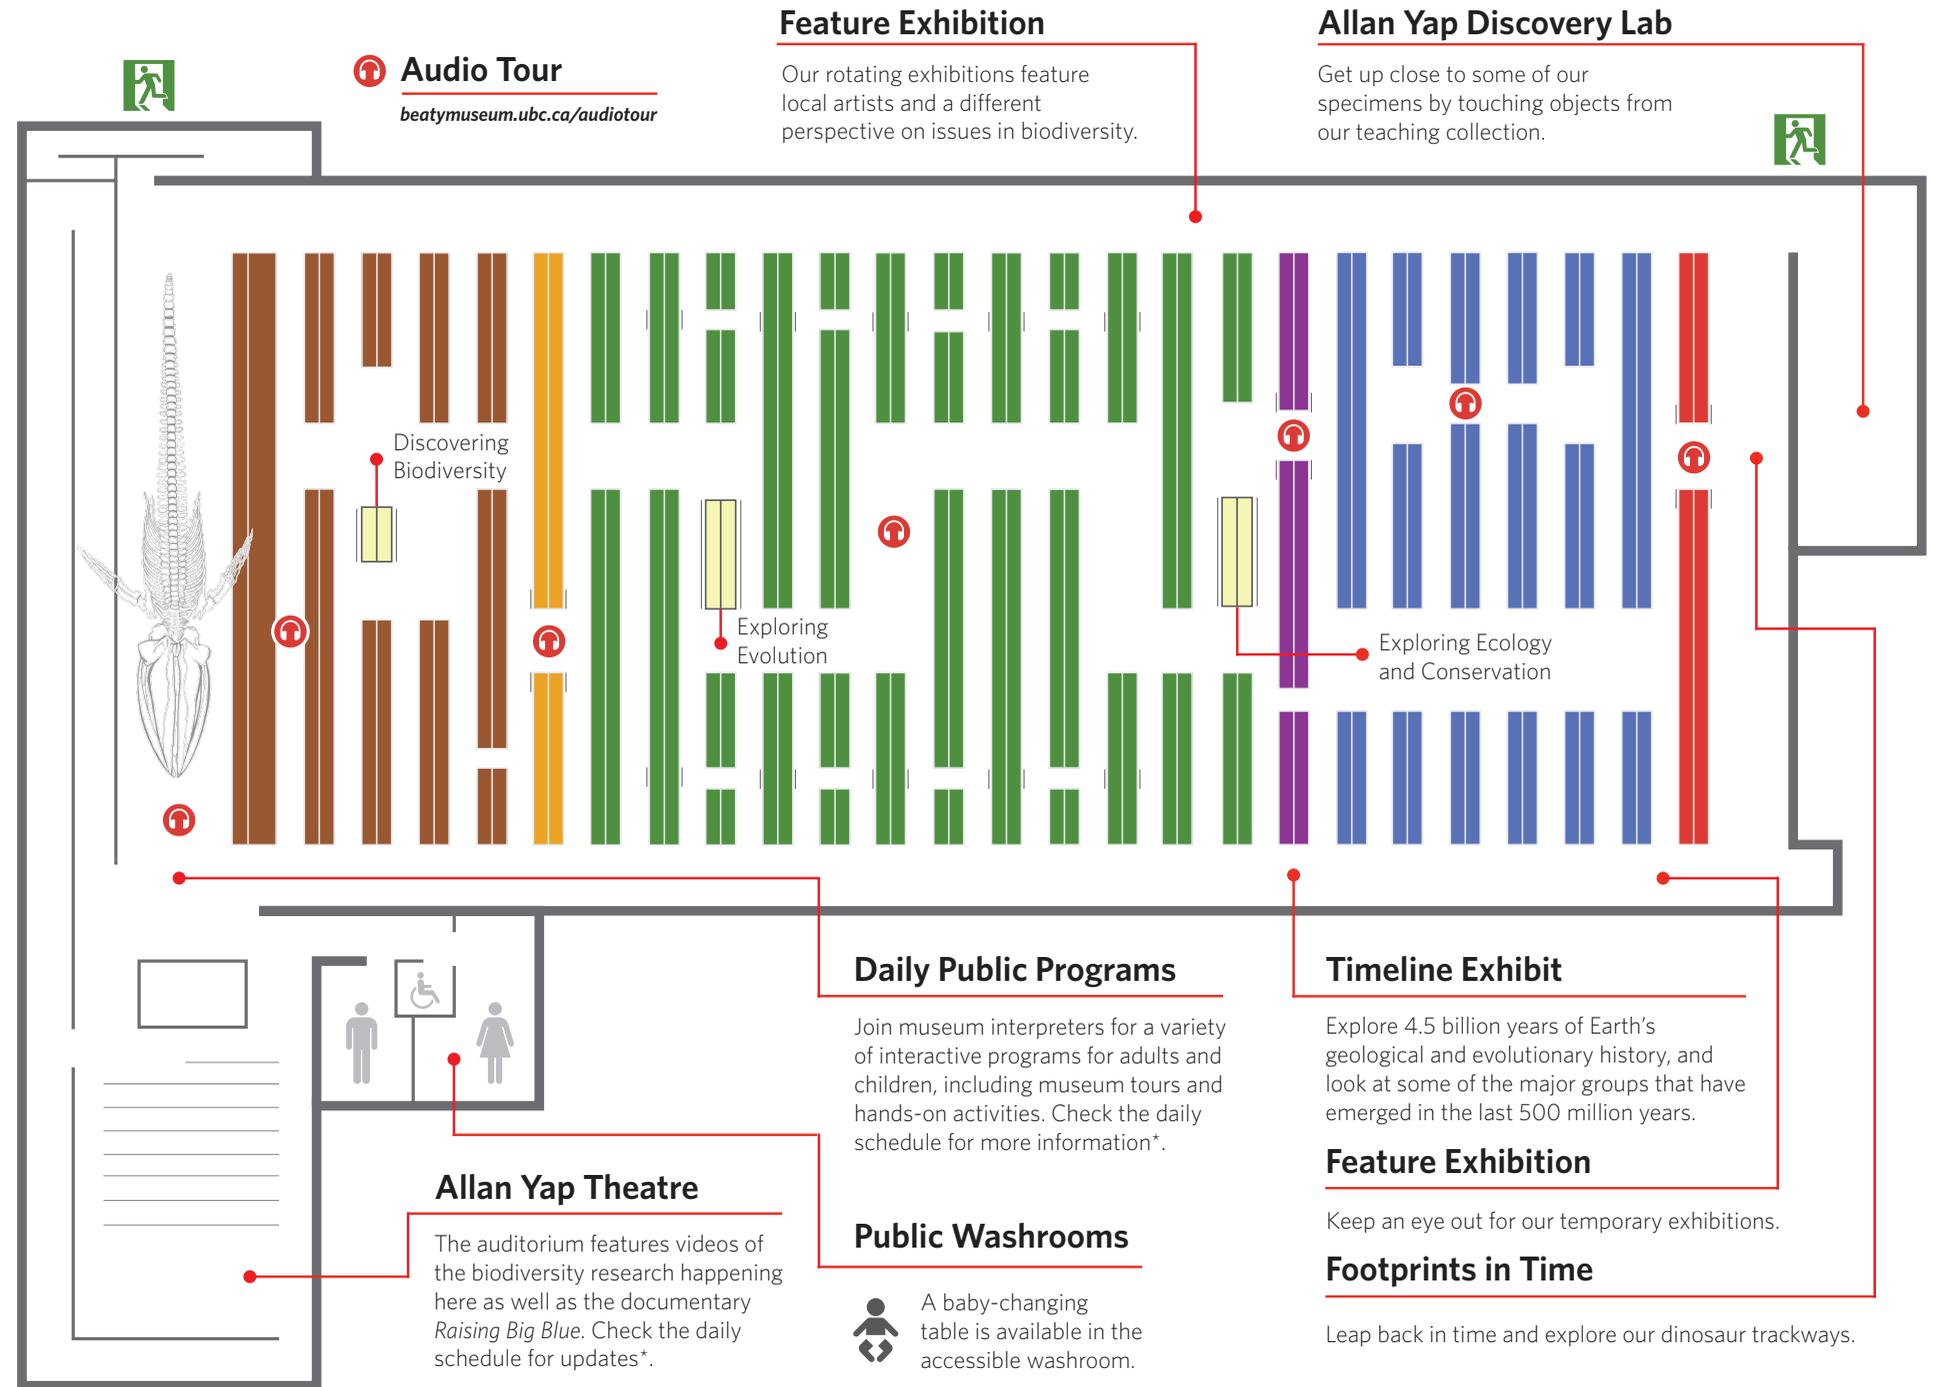

The **Spencer Entomological Collection** holds over 650,000 specimens that highlight the diversity of British Columbia's insects and other arthropods, as well as jumping spiders from around the world.

The **Fish Collection** boasts over 850,000 specimens, with particularly spectacular and important holdings from Canada, the Aleutians, the Malay Archipelago, Mexico, the Galapagos, Panama, and the Amazon.

The **Fossil Collection** contains over 20,000 specimens that range from recent shells to 500-million-year-old fossils of blue-green algae, as well as specimens from British Columbia's famous Burgess Shale.

Audio Tour

beatymuseum.ubc.ca/audiotour

Feature Exhibition

Our rotating exhibitions feature local artists and a different perspective on issues in biodiversity.

Allan Yap Discovery Lab

Get up close to some of our specimens by touching objects from our teaching collection.

Discovering Biodiversity

Exploring Evolution

Exploring Ecology and Conservation

Daily Public Programs

Join museum interpreters for a variety of interactive programs for adults and children, including museum tours and hands-on activities. Check the daily schedule for more information*.

Timeline Exhibit

Explore 4.5 billion years of Earth's geological and evolutionary history, and look at some of the major groups that have emerged in the last 500 million years.

Feature Exhibition

Keep an eye out for our temporary exhibitions.

Footprints in Time

Leap back in time and explore our dinosaur trackways.

Allan Yap Theatre

The auditorium features videos of the biodiversity research happening here as well as the documentary *Raising Big Blue*. Check the daily schedule for updates*.

Public Washrooms

A baby-changing table is available in the accessible washroom.

*Schedule subject to change without notice.

The water fountain is upstairs, near the admissions desk.

For elevator access, please see museum staff.

We acknowledge that the land on which the Beaty Biodiversity Museum is located is the traditional, ancestral, and unceded territory of the **xʷməθkʷəy̓əm** (Musqueam) People.

The **Beaty Biodiversity Museum** strives to inspire an understanding of biodiversity through collections-based research, education, outreach, and exhibits. As Vancouver's natural history museum, we work to promote a greater sense of collective responsibility for the biodiversity of British Columbia, Canada, and the world.

Our cabinets and drawers house over 2 million specimens. The labels on the cabinet doors can tell you a lot about what is inside.

Open the drawers to discover more stories

As you explore the exhibits, look for these four symbols representing the drama, change, heritage, and conservation of biodiversity. A display connected to one of these themes will have the symbol highlighted.

Drama

A tide pool is a place of murder, thievery, deception, and conspiracy, but also a place of cooperation and interdependency. Explore the ecological interactions that sustain and define all life.

Change

Biodiversity was not always as it is now. Learn about the dynamic mix of chance and circumstance that drives evolution and has produced all species alive today.

Heritage

Discover how you are related to all life on Earth in a vast evolutionary tree descended from a single ancestral species, and explore the enormous diversity of both the past and present.

Conservation

Biodiversity is important, but it is fading, and its fate is in your hands. Find out why biodiversity matters, what threatens it, and what you can do to help protect it.

Hours

Tuesday – Sunday, 10:00 am – 5:00 pm
Nocturnal (3rd Thursday), open until 8:30 pm

Location

2212 Main Mall, University of British Columbia,
Vancouver, BC V6T 1Z4 Canada

Become a member

Visit as often as you would like and get invites to members-only events. Talk to our admissions staff about the other benefits of membership, and to purchase a membership for yourself or buy one as a gift. Learn more at: beatymuseum.ubc.ca/

Book a tour

Educational tours and programs are available for groups of all ages. Get hands-on and up close with our collection while learning about biodiversity, evolution, ecology, and conservation. Learn more at: beatymuseum.ubc.ca/learn
